

REMARKS

This paper is responsive to the Office action mailed on November 9, 2007. Claims 1 and 6 were presented for examination and were rejected and objected to. Claims 1 and 6 have been amended.

The applicants respectfully submit that the claims as amended overcome the objection and rejection, and the applicants request reconsideration in light of the following comments.

Claim Objection

Claims 1 and 6 were objected to for various informalities.

Claim 1 has been amended to correct all of the formalities indicated in the Office action. The applicants respectfully submit that claim 1, as amended, overcomes the objection. Since claim 6 depends on claim 1, the applicants also submit that the objection to claim 6 has been overcome as well.

35 U.S.C. 112, Second Paragraph Rejection of Claims 1 and 6

Claims 1 and 6 were rejected under 35 U.S.C. 112, second paragraph as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1 and 6 have been amended to correct all of the issues indicated in the Office action, which were all related to insufficient antecedent basis. The applicants respectfully submit that claims 1 and 6, as amended, overcome the objection.

Request for Reconsideration Pursuant to 37 C.F.R. 1.111

Having responded to each and every ground for objection and rejection in the Office action mailed on November 9, 2007, applicants respectfully request reconsideration of the instant application pursuant to 37 CFR 1.111 and request that the Examiner allow all of the pending claims and pass the application to issue.

If there are remaining issues, the applicants respectfully request that Examiner telephone the applicants' attorney so that those issues can be resolved as quickly as possible.

Respectfully,
Yong-San Yoon et al.
